PRESS RELEASE

METAL TECHNOLOGY (MTI) ANNOUNCES NEW CEO

February 15th, 2014

Metal Technology, a privately held custom manufacturing business specializing in reactive metals, refractory metals, and high temperature alloys headquartered in Albany, Oregon, announced today that its Board of Directors has appointed Gary Cosmer as Chief Executive Officer.

With over 18 years of experience

at a broad range of organizations including international and publicly held corporations, Gary possesses a strong ability to identify operational challenges, develop improvement initiatives, and implement them quickly, effectively and efficiently.

"Metal Technology is widely known for their expertise when it comes to machining and forming reactive and

refractory metals, and I couldn't be more honored to have been chosen to lead the company. The opportunity ahead for Metal Technology is vast, but to seize it, we must continue to bring innovative manufacturing techniques to our customers that will ultimately help them drive down costs and improve their ability to respond to market changes faster." Cosmer said.

> ABOUT METAL TECHNOLOGY (MTI)

Established in 1971, Metal Technology (MTI) uses innovative technologies to offer global markets a wide range of specialty metals solutions. Major markets served are aerospace, defense, scientific, semi-conductor, superconducting, medical, neutron analysis, chemical process industry (CPI), nuclear and vacuum coating.

Metal Technology is ISO 9001-2008 registered and ITAR compliant. The MTI website is www.mtialbany.com.
