MTI ANNOUNCES NEW MARKETING & COMMUNICATIONS MANAGER *June 16th, 2014*

Metal Technology, a privately held custom manufacturing business specializing in reactive metals, refractory metals, and high temperature alloys headquartered in Albany, Oregon, announced today that it has added Marketing and Communications Manager, Matt Crateau to its staff.

An eight-year Air Force veteran, Matt brings a diverse, international background. His 18-years communications experience is built on multiple roles in the U.S. Air Force and at a publicly held corporation. Matt comes to Metal Technology from a

U.S. based reactive and refractory alloy producer where he was responsible for market research and contributions to strategy development. His recent experience also includes participating in the business development function for materials and processes in the field of Additive Manufacturing. "Metal Technology is poised for growth and I am very excited to join this dynamic organization at this time. The markets we operate in are exciting, fast-paced, and intellectually challenging. I look forward to working with our customers to identify the right solutions for their

demanding applications." Crateau said.

"Matt has the demonstrated talent and background to help us expand the way we communicate with new and existing customers, helping to create a delightful experience for them," said Gary Cosmer, Metal Technology CEO. "Our future depends on our ability to create the most innovative, technologically advanced manufacturing techniques in the world – working with exotic reactive and refractory metals. Matt's experience in this space makes him an important addition to our leadership team."

> ABOUT METAL TECHNOLOGY (MTI)

Established in 1971, Metal Technology (MTI) uses innovative technologies to offer global markets a wide range of specialty metals solutions. Major markets served are aerospace, defense, scientific, semi-conductor, superconducting, medical, neutron analysis, chemical process industry (CPI), nuclear and vacuum coating. Metal Technology is ISO 9001-2008 registered and ITAR compliant. Visit MTI online at www.mtialbany.com.
